

Rec March 6th

Taberandi

an
LeRoy Columbia College, Herbarium

New York, March 3 1876

Dear Sir

I send by Amer. Express
the Oaks wanted, the acorns are
in bottles which I have not sent as
many are without the localities
marked on the bottles and some
are not even named, so that it
is not possible to say where they
belong. How can I get your
monograph of *Vitis* and *Yucca*'s
also the agave?

I remain yours truly

P. J. LeRoy

Dear Sir

I have just received
the plants mounted, the specimens
in bottles which I have not sent as
many are without the localities
marked on the bottles and some
are not even in bottles that it
is not possible to say where they
belong. How can I get your
nomenclature of plants and figures
also the name?

I remain your truly
